

Hancock Whitney Stadium

Highlight

New 25,000 - seat football stadium offering a perfect blend of innovation, campus history, and pride, highlighted by the use of school colors.

Optimized Solution & Features

- Design Assist and Preconstruction Services
- I-Beam Grandstand horseshoe layout, coordinated with end zone mezzanine and retaining wall
- Multiple seating styles incorporated

- Guardian Style Vertical Picket Rail coordinated with masonry trade
- Aluminum Drink Rail

Built With The Next Level In Mind...

Foresight is insight! Stadium is designed and constructed with future expansions in mind. Existing structures are able to take this stadium on to 32,000-seats and beyond.

Project Partners

- Architect: CDFL
- Engineer: LBYD, Inc.
